SRIXON/TOP-FLITE BALLS

Srixon AD333

Code: 930

The new and improved version of it's best selling AD333 ball features an even larger core, thinner cover and improved aerodynamics.

The larger, highly resilient, soft Energetic Gradient Growth core provides faster ball speed than it's predecessor with optimal high launch angle and low spin launch conditions.

The highly resilient and soft Rabalon® HR and Pana-Tetra® blended thinner cover provides a high launch with low spin for greater distance, excellent spin and control with the short irons and a superior soft feel

The high trajectory 333 dimple pattern with advanced aerodynamics produces a true, penetrating ball flight in all wind conditions.,

Logo area: 25mm circle

Minimum order quantity: 12 dozen

Shipping: 10 to 15 working days

Srixon Distance

Code: 933

The NEW AND IMPROVED premium Distance Srixon golf ball has higher initial velocity and a penetrating ball flight for greater distance.

Highly resilient, larger Energetic Gradient Growth core with softer compression gives higher initial velocity and high launch angle with lower spin resulting in greater carry and distance together with a responsive light feel.

Highly resilient ionomer cover provides longer drives and exceptional cut proof durability.

Aerodynamically superior 420 dimple configuration provides a true and penetrating trajectory.

Logo area: 25mm circle

Minimum order quantity: 12 dozen

Shipping: 10 to 15 working days

Top-Flite XL Distance

Code: 9008

The NEW AND IMPROVED premium Distance Srixon golf ball has The XL Distance Golf Ball and XL Straight Golf Ball have been the go-to balls for distance, durability, and value since the 1980s. Now with significant advancements, the XL line is still the ball to tee up when you want to leave your buddies' shots in the dust.

Afterburner Core Technology provides more distance and feel, while the Distance Dimple Technology creates more streamlined ball flight. Basically, the XL line is longer than ever and it lasts until the cows come home. Even better, the XL Distance Golf Ball and XL Straight Golf Ball are both available in value-rich packs of 15 golf balls.

Logo area: 25mm circle

Minimum order quantity: 12 dozen

Shipping: 10 to 15 working days

LOGO CALLAWAY BALLS

Tour i(z)

Code: 9001

The new 4-piece Tour i(s) utilizes second generation Dual Core technology, making it easier for golfers of all abilities to generate maximum short-game spin. Callaway's softest Tour ball features refined HEX Aerodynamics for reduced drag and stable, efficient ball flight in all wind conditions.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

Tour i(s)

Code: 9002

Callaway's most technologically advanced golf ball on Tour. Through second generation Dual Core technology, Callaway engineers have designed a 4-piece Tour ball that delivers even faster ball speeds. The refined HEX Aerodynamics pattern has been improved to reduce drag and improve flight stability through every kind of wind condition. The new urethane cover provides Tour-level feel and control around the green with significantly improved durability.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

HX Diablo Tour

Code: 9003

The new HX Diablo Tour combines all the best elements of the HX Bite and HX Hot Plus, providing the optimum combination of distance, feel and control in a 3-piece performance golf ball.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

LOGO CALLAWAY BALLS

HX Diablo

Code: 9005

Straighter Distance, Softer Feel - The results surprised even us. A golf ball this soft, and with this much feel, shouldn't be able to go this far. The new High-Resiliency core is not only soft, but also fast, which means you'll never sacrifice distance for soft feel. Plus, this golf ball's unique low spin properties mean that players who impart too much spin off the driver will see more distance and less severe hooks and slices. The HX Diablo Golf Ball offers lower driver spin and softer feel than most golf balls on the market for superior accuracy off the tee and better feel on every shot.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

Warbird Plus

Code: 9007

A redesigned golf ball featuring an all-new faster core construction and the addition of HEX Aerodynamics. The new Warbird Plus Golf Ball becomes a member of the HEX family. For the first time on a Warbird, we've ditched the dimples and incorporated HEX Aerodynamics. When you throw in the new high powered core, it becomes the longest Warbird we've ever made. The durable Ionomer cover provides long-lasting playability and also helps increase the deep distance this ball delivers.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

Solaire

Code: 9006

For any women who want to hit shots that fly farther than ever. Designed to perform ideally at slower swing speeds, the Solaire features a soft, resilient core that has been specifically formulated to provide increased carry and distance. The low compression core produces soft feel off the clubface and patented HEX Aerodynamics produces long, efficient ball flight. The Solaire is stylishly offered in two colour options: Pure White or High Visibility Pink. Both utilize a luminous finish that will add a distinctive flair to any woman's game.

Logo area: 25mm circle
Minimum order quantity: 12 dozen
Shipping: 10 to 15 working days

Pinnacle Gold Distance

Code: 921

Consistent with its distance heritage, Pinnacle continues to provide a golf ball product that exceeds those golfer's expectations whose first priority is to hit the golf ball as long as humanly possible. The new Pinnacle Gold Distance will appeal to value conscious golfers who prioritise long, straight distance. Designed to deliver maximum distance, the Pinnacle Gold Distance features a low spin, resilient ionomer cover and a high speed core to provide long, straight distance from tee to green. A 332 Icosahedral dimple design helps provide consistent ball flight from tee to green with a higher trajectory for maximum distance. The "Distance" alignment sidestamp promotes better putting accuracy.

ORDERING FROM US

How to order

Supply us your artwork

Artwork should be supplied as a high quality vector format file, ideally as an Adobe Illustrator .AI .EPS or .PDF file. Fonts within the artwork should always be converted to outlines.

Other formats

If vectorised artwork is not available we can work with other high resolution artwork (300dpi), formats include .PSD .JPG .TIFF .BMP or .GIFF, however please note that there may be additional charges for converting the artwork to a vector format.

Colour references

We print using Pantone inks (pms) therefore we require the correct Pantone references when ordering. If the Pantone references are unknown we can match the colours. Whilst we will always endeavour to get the colours as close as possible, when matching we cannot guarantee an exact colour match using this method. We will only guarantee to Pantone match on white products as bleedthrough of the background colour will usually affect the exact shade.

Proofing

Our studio will send out via email a .PDF proof illustrating how the supplied artwork will look on the product, to approve the artwork you can either fax back the approval form or reply back to the studio via email. We will only continue processing your order once we have received an approval.

Shipping

Our standard dispatch time is 10 working days from approval of artwork. If the products are required sooner than 10 working days we do have express options available at extra cost.
